

U. S. Department of Housing and Urban Development
Washington, D.C. 20410

OFFICE OF LEAD HAZARD CONTROL

POLICY GUIDANCE NUMBER: 94-07b		DATE: September 16, 1994	
SUBJECT:		Use of Grant Funds and Enactment of Enabling Contractor Certification Legislation and Use of contractors certified in other states	
STATUS:		Archived	
APPLICABILITY:		All grant rounds (only city and county grantees).	
RELATED GUIDANCES:		Policy guidance 95-05.	
COMMENTS:		Superseded by Notice of Funding Availability requirements and other policy guidances. This policy guidance will be archived and no longer be referenced.	

[letter to Paul Kowalski, Director, Environmental Health, City of New Haven, CT]

Dear Mr. Kowalski:

I am writing this letter to inform you that, effective September 15, 1994, one year from the deadline for submission of the Round Two grant applications, city and county grantees from Rounds One and Two where a State lead-based paint (LBP) contractor certification program does not exist are hereby authorized to utilize LBP hazard abatement/control contractors which have been certified in other States possessing acceptable LBP contractor certification programs.

The Department continues to encourage State efforts to enact and implement LBP contractor certification programs and views the Lead-Based Paint Hazard Control Grant Program as an important stimulus to achieve this objective. At the same time, the Department does not want to prevent local hazard control efforts from moving forward because of the absence of acceptable State legislation and/or LBP contractor certification programs. Therefore, you are authorized to take appropriate steps to secure contractors with certification under other State LBP contractor certification programs in order to address this pressing health and housing problem. This authorization to use contractors

certified in other States shall continue until such time as your State implements the appropriate contractor certification program and certifies its own contractors.

Should you have any questions regarding this matter, please contact your HUD Government Technical Representative (GTR): Stan Galik, (202) 755-1822.

Sincerely,

A handwritten signature in black ink, appearing to read "Ellis G. Goldman", with a long horizontal flourish extending to the left.

Ellis G. Goldman
Director, Program Management Division
